Kodu Makerspace
# Learn to make your own games!

Lesson 8

**Microsoft**   Microsoft Imagine

Questions we'll answer:

- What is important to remember when looking at someone's game in a Gallery Walk?

- What have I learned by creating a game in Kodu?

Let's look for wows

- **Wows**: a sincere praise

We will celebrate accomplishments by looking for **wows**
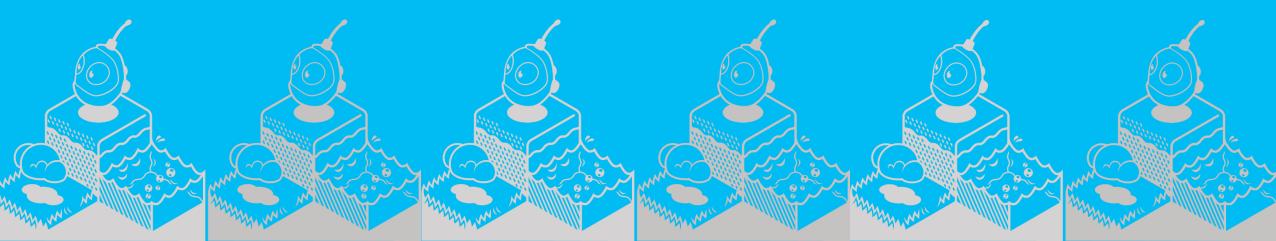

in the games created by our peers

Gallery Walk flow

1. Walk around the room with your partner

2. Move around room "clockwise", starting at your workspace

3. Look for **wows** on your Gallery Walk

4. Play each game for 2 minutes

After the Gallery Walk

- What did you like the most about the Gallery Tour?

- What **wows** did you observe?

Reflection

Characters	🙂	😐	🙁
My characters are interesting			
My characters are the right size			
My characters add to the fun of the game			
Actions	🙂	😐	🙁
My game is fun			
My characters are exciting			
My character actions work			
Directions	🙂	😐	🙁
My directions are easy to understand			
My directions are complete			
My directions work when they are followed			

Thank you!

See you next time!
